WORLD OF WOODS

WORLD OF WOODS

The World of Woods is a collection of 100 wood species, each with a detailed description of its characteristics, uses, and distribution. The book is organized into 10 sections, each representing a different type of wood. The sections are: 1. Hardwoods, 2. Softwoods, 3. Tropical Woods, 4. Temperate Woods, 5. Coniferous Woods, 6. Deciduous Woods, 7. Exotic Woods, 8. Rare Woods, 9. Ancient Woods, and 10. Modern Woods. Each section contains a list of wood species, their scientific names, and a brief description of their properties and uses. The book is a valuable resource for anyone interested in the world of wood.
